

YD25 LCD Switch Panel Display

Compact switch panel with a 2.5" LCD display to view all YANMAR engine data, alarms, and diagnostic troubleshooting codes. Integrates with multifunction displays and glass helm systems, or can function as a standalone instrument display aboard smaller vessels.

Actual size

FEATURES

- Compact engine start/stop switch panel with 2.5" LCD display
- Modern styling to match current MFD designs
- 4 customizable screens
- Display engine speed, oil pressure, coolant temperature, engine hours, engine load, and all YANMAR engine alarm and diagnostic troubleshooting codes
- Intuitive operation with waterproof silicon keys
- Easy installation

Compact & modern design

Designed for use in all weather conditions, the water resistant YD25 LCD display is the ideal solution for boats with limited dashboard space and is the perfect alternative for the traditional YANMAR B25 and C35 medallion displays.

Intuitive operation

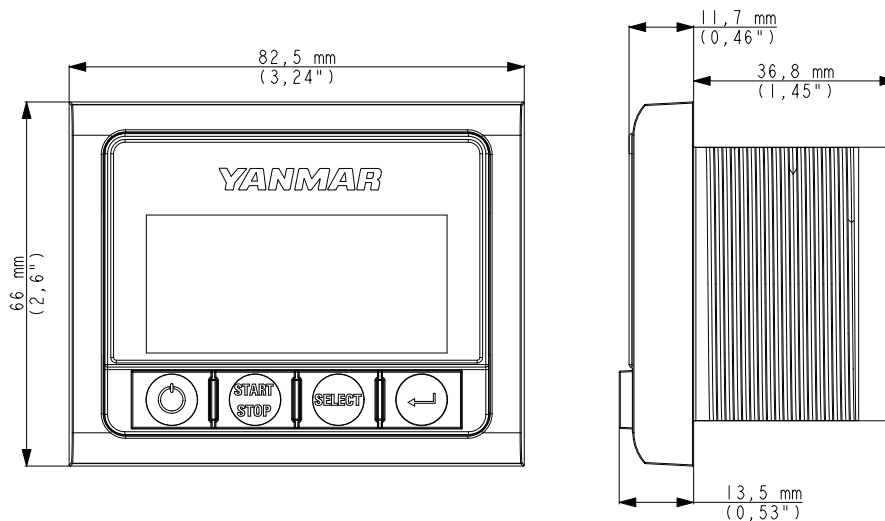

Simple engine start/stop functionality and intuitive data screen selection keys allow you to view engine speed, engine load, oil pressure, coolant temperature, and more at a glance.
